### **(127) Opening Leads: Interpreting Partner's Lead**

© AiB

Levels: 1, 3

Robert S. Todd

#### **General**

Partner normally leads 4<sup>th</sup> best from an honor, but that is not the only type of lead that partner can make. One of the skills a 3<sup>rd</sup> hand player (partner of the opening leader) needs to develop is how to interpret partner's opening lead. Let's look at the different options we need to consider.

#### **Touching Honors**

##### *Level 1*

One common opening lead other than 4<sup>th</sup> best is top of touching honors or from an honor sequence. If partner leads a high card (an honor - A, K, Q, J, or T), then they have at least one more honor.

- Versus a suit contract they have at least one other touching honor and they usually do not have the Ace of the suit led unless that was the lead.
- These are the Standard Leads vs. Suits:
  - Ace Lead from
    - **AK+**
  - King Lead from
    - **KQ+**
    - **AK** (doubleton)
  - Queen Lead from
    - **QJ+**
  - Jack Lead from
    - **JT+**
    - **KJT+** (top of interior sequence)
  - Ten Lead from
    - **T9+**
    - **QT9+** (top of interior sequence)
    - **KT9+** (top of interior sequence)

- Versus a Notrump contract, if partner leads an honor then they have three touching or nearly touching honors. In this case, they could have underled the Ace.
- These are the Standard Leads vs. Notrump:
  - Ace Lead from
    - **AKQ+**
    - **AKJT+** (power lead, asking for the unblock of the Q)
  - King Lead from
    - **AKJx+**
    - **KQJ+**
    - **KQT+**
  - Queen Lead from
    - **AQJ+**
    - **AQT+**
    - **KQT9+** (power lead, asking for the unblock of the J)
    - **QJT+**
  - Jack Lead from
    - **AJT+** (top of interior sequence)
    - **KJT+** (top of interior sequence)
    - **JT9+**
    - **JT8+**
  - Ten Lead From
    - **AT9+** (top of interior sequence)
    - **KT9+** (top of interior sequence)
    - **QT9+** (top of interior sequence)
    - **T98+**

### **“Top of Nothing” Leads**

Another option for partner’s lead (instead of 4<sup>th</sup> best) is that it is a “Top of Nothing” lead. This is an example of an attitude-oriented lead (low from interest/honor; high from no interest/no honor). Sometimes partner will not want to waste their highest card and in that case, they will lead their 2<sup>nd</sup> best card (making it appear like a top of nothing lead).

#### *Examples*

**T873** – Lead the 8.

**9863** – Lead the 9.

In either case (top of nothing or 2<sup>nd</sup> best from a bad holding) we can usually work out that partner has led from no honors by using the Rule of 11 and seeing that partner’s lead cannot have been 4<sup>th</sup> best.

*Note: Sometimes we may have confusion when partner leads top of nothing. It can appear as if they are leading top of a doubleton. It is up to 3<sup>rd</sup> seat to try to work out the possible holdings to determine what partner could be leading from, which is sometimes a challenge, and figure out the position based on other factors/information from the hand.*

## **Interior Sequence**

When partner leads a high spot (or even some honors), another option for what that lead can be (instead of top of nothing) is that it is from an interior sequence.

AJT+ (NT only)  
KJT+  
AQJ+ (NT only)  
KT9+  
AT9+ (NT only)  
QT9+

## **Coded 10s/9s and Jack Denies**

### *Non-standard Optional Agreement*

Some players lead the T or 9 from their interior sequences, even if it is not the top of that interior sequence. Therefore, when they lead a Jack, it denies holding any higher honor in the suit.

QT9  
KT9  
AT9  
KJT  
AJT  
JT+

If this is your treatment/agreement, then make sure to make use of the inferences available to you when visualizing the opening lead. In this case, the T or 9 lead shows either zero cards higher (top of nothing) or two cards higher (including specifically the card right above it).

## **Conclusion**

Interpreting partner's opening lead can be difficult. There are some useful rules like the Rule of 11, but the most important thing is to consider the possible types of leads partner may have chosen from: 4<sup>th</sup> Best, Top of Nothing, Interior Sequence,

Coded T<sub>5</sub>/9<sub>s</sub> (Jack Denies), etc. If you can figure out the type of lead that partner is making, you will be in a good position to figure out the right card to play to trick 1 and beyond.
